

Corporate Environmental Policy

Document revision 2025-01-17 12:01

Kamstrup manufactures Quality Products and Solutions with the clear ambition of revolutionizing the supply of clean water and energy through intelligence.

We are a valued partner and are proudly committed to minimizing our environmental- and climate impact by fostering sustainability across our value chains.

Supported by our Values and the environmental guidelines given in our Code of Conduct, our Corporate Environmental Policy is:

- **Fact-based approach:** Acknowledgement of the scientific consensus regarding the existence of human-caused climate- and environmental change, and the urgency to act to protect human health, ecological prosperity, economic sustainability, and global safety.
- **Continuous improvements:** We actively consider potential environmental- and climate-related impacts, followed by corrective and preventive actions to safeguard and reduce environmental impacts.
- **Stakeholder involvement:** Collaboration with stakeholders to improve sustainability throughout the value chains, ensuring compliance with regulations, supporting adoption of sustainable processes and resources avoiding and/or reducing environmental impacts.
- **Compliance:** We respect and comply with national as well as relevant international laws and regulations across our value chains including contractual and internal requirements.

Our environmental-certified Integrated Management System ensures policy adherence and regular reviews to maintain effectiveness, compliance, and reduced impacts, aspiring a sustainable business approach.
